Method #2 32* Method #1 32* Method #3 and Method #4 I don't mean to say that one way is "better" than the others. I just want you to remember that both ways may work for you. And if you feel that there is a possibility that Method #2 will work for you, then try it. If you feel like Method #1 works for you, then try that too. And if you feel that Method #3 suits you, then try it! I am sure that each of these ways can give you something useful.
