Aku Shaper Free

Aku Shaper is a practical and intuitive software solution geared towards users who need to design their own surfboard, based on specific width, thickness, length and curve dimensions. Especially intended for surfboard enthusiasts, the application comes with complex options that they can choose from. Intuitive and user-friendly interface When you launch the program for the first time, you will notice that the main window includes several tabs that allow you to adjust the settings according to your needs.

Tabs such as 'Outline', 'The Bat', 'Machine Parameters' and 'Board Info' enable you to set each dimension with extra care and preview all the modifications in real-time. The main toolbar allows you to zoom in or out a specific area in your surfboard, add new points and guides, as well as change the measurement unit from feet and inches, to centimeters or millimeters.

Straightforward and unique cutter design Aku Shaper enables you to adjust the dimensions of your own surfboard as you want by modifying the length, width and thickness values. Simply drag each square to the right position and change the design of the current board with ease. Since all the values are automatically displayed in the bottom pane of the application, all you have to do

is to change the design of the surfboard while viewing the output result. Additionally, you can navigate to the 'Machine Parameters' tab if you want to modify the cutting file variables such as 'Top Rail Cuts', 'Bot Rail Cuts' and 'Bottom Cuts'. A useful and effective surfboard designer To sum things up, Aku Shaper provides real surfboard connaisseurs with the right tools that help them to quickly design their own board and adjust the values according to their whims.
