What's the way to apply the template in selected date (current date) using datatables in YII? if we apply the template like this in the section it displays the date as I want but when the user select the date the page is refreshed and I want it to stay on the current date and template A: Ciao @Kris, for your searchBox you need to specify t: $this->widget('zii.widgets.jui.CJuiDatePicker',array('model'=>$model,'attribute'=>'date', 'value'=>$model->date, 'options' => array('monthNames' => true, 'dayNames' => true, 'showOtherMonths' => true, 'dateFormat'=>'m/d/Y',),)); so in that case the result in this {{date($model->date)}} In this case if you don't specify the value and leave free to choose the date by default this will happen {{date($model->date)}} So if you are in this case I suggest you to add the manualy the date to the date field as default $model->date=new CJuiDatePicker('date',$date); Good luck!! A: I don't know about datatables, but this would be how you would do it with the simple widget: $this->widget('zii.widgets.jui.CJuiDatePicker', array('model'=>$model,'attribute'=>'date', 'value'=>$model->date, 'options' => 6d1f23a050
