Bing Top+N Education For whatever reason, I created a new icon for www.cms.education and www.education.gov. I was not able to find any options on how to transfer my old icon to the new icon. I would like to transfer the old icon that matches the look and feel

of www.cms.education and www.education.gov. Any ideas? I'm creating a document with a NEX in it and I need the text to go back and forth. I would like the cursor to stay in place. I've tried to put all the text in a paragraph. I've tried making a table and doing it that way as well as creating a new table. Neither ways work. The document will be

containing of numerical data. Please help. Hello, I have a large graphic designed by another artist (I'm a beginner). I need help in getting the text size/font/color etc. the same to the image. I need the logo to be a drop shadow but I don't know how to do that. I feel like this is just an example not the problem. I have the original, 2 different

standard photoshop files, 1 for the bckground and 1 for the main elements. The text will be custom created as well as the tag, music, and JPG. Is there a program that will batch replace the font, color, text size, etc.? Thank you! jess PDF Annotator PDF Annotator is a re-usable PDF Software which can be used to add or remove annotations from any PDF
